

**REPORT:** Retest

**AUTHOR:** Wiktoria Sapota

2021-07: Taskade 3.3.9 was tested in terms of usability. Was found bugs and contradictions that make it difficult to operate the program.

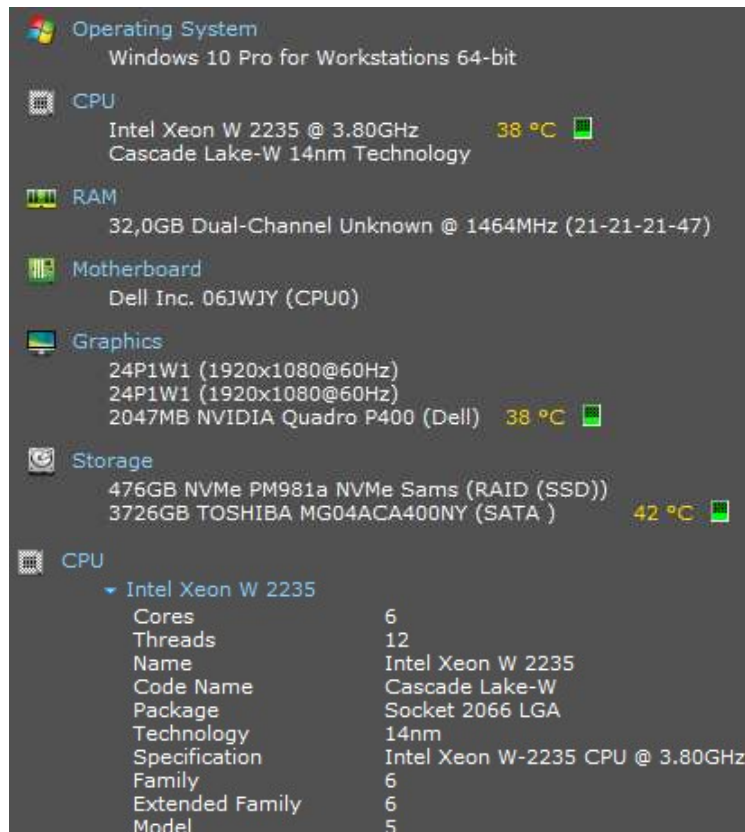

2021-11: Restests in Taskade 4.1.1

**Tested software:** Taskade 3.3.9

**Available:** taskade.com

**Version:** a desktop application

### System information

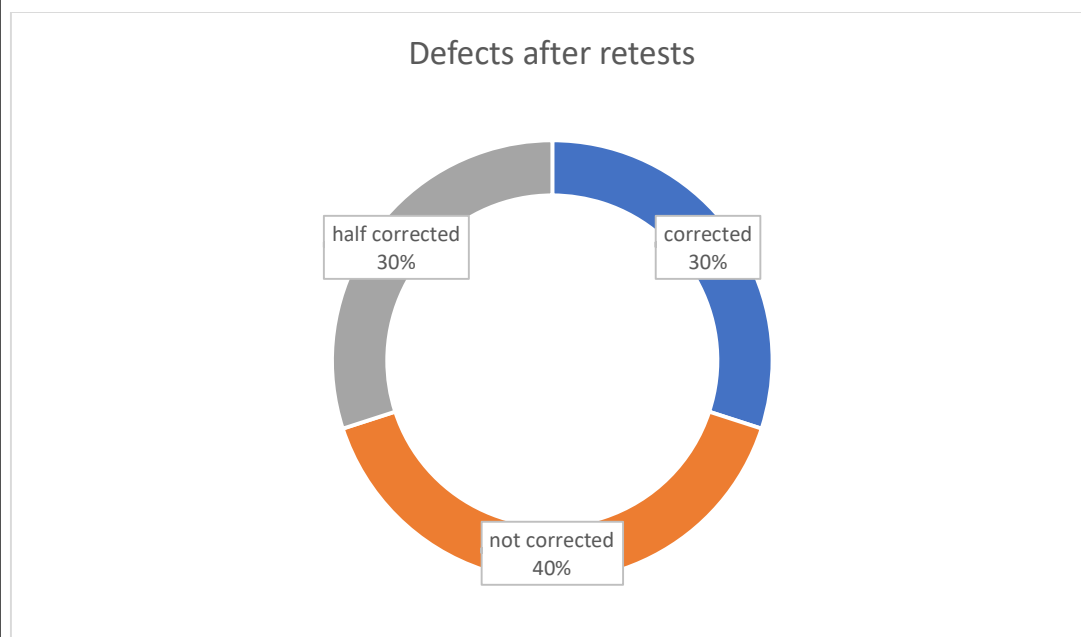

### Description

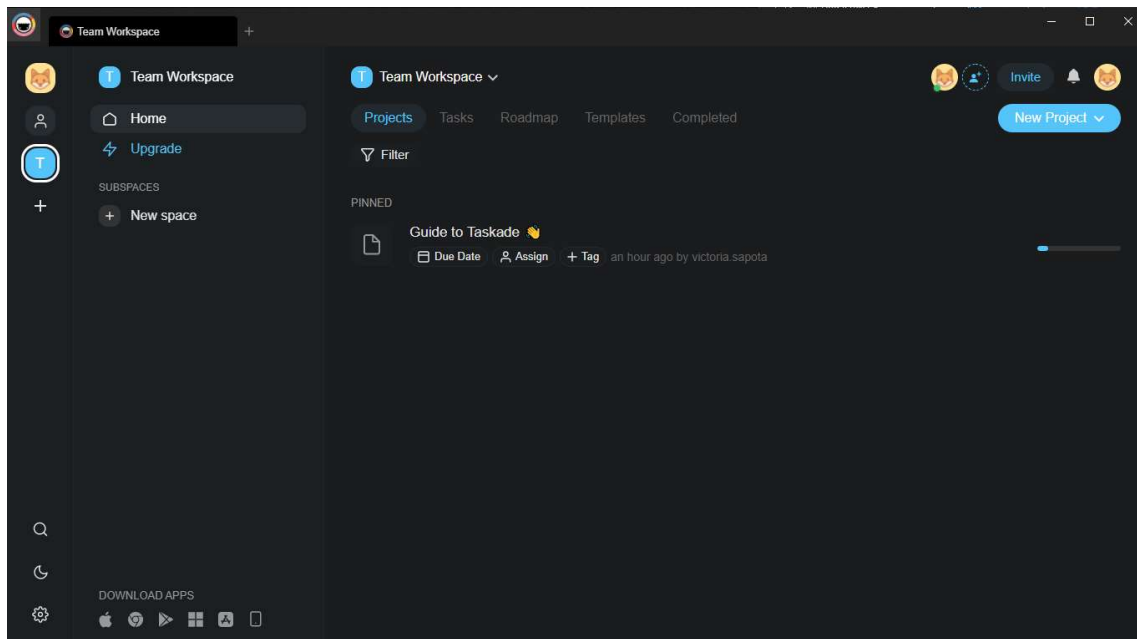

The software is a powerful tool that allows you to create lists containing notes and tasks. The target user may be any person who needs an application to organize their affairs. A usability test will be divided into a few sections containing the software description, and finally, it will comment about defects. Users can download versions to mobile apps, as a browser extension or as a desktop application.

#	Defect/suggestion	retest	Change
1.	Users haven't possible to sign up by other accounts like Twitter or Apple.	No change	-
