REPORT: Covering functions with ideas

AUTHOR: Wiktoria Sapota

Tested website: http://nutridome.com

Main aim: The Nutridome is a website store with professional and natural cosmetics with simply and often vegan ingredients.

Features

- user can log in or create an account without Google or Facebook account
- manage personal account, settings and orders
- possibility to searching or selecting products by categories or brand
- access to a basket
- "Favorites" category of cosmetics
- option to subscribe to the newsletter
- download mobile application
- possibility to submit an order with any payment method chosen, define a delivery address
- available information about the shopping principles and functioning of the store.

Benefits for users

Fast products searching and efficient submit orders.

Test's ideas that cover areas and features

Aspect not covered in this plan:

security tests

non-functional tests

payment processes

hardware compatibility testing (mobile apps)

#	Test idea	feature
1	Checking log in: correct e-mail address and password	
2	Creating an account by defining an e-mail address and password	Creating account
3	Creating an account by Google	
4	Creating an account by Facebook	
5	View to Orders history	Account settings
6	Manage of Shopping cyclic	
7	Manage of Deliviery addresses	
8	Checking default payment method settings	
9	Password change	
10	Logging out of the account	
11	View to products at the basket	Basket
12	Adding products to the basket	

14 Deleting products from the basket 15 View to products at the Favorites 16 Deleting products from the Favorites 17 Adding products to the basket 18 Verification of the drop-down menu at the top of the page. Because all categories and products checking is impossible - is necessary to term risk and testing part of groups 19 Viewing a single product 20 Searching product by the "Search" window 20 Images displaying 21 Videos displaying 22 Adding products to the basket A version of product choosing (size/color) Working information about a product - the drop-down parts: "Brand description", "Ingredients", "How to use", "Deliviery and return" 23 Using feature the "Add a question" and determination of correctess contact form settings 24 Like and unlike to client opinions 25 Dropping the "More questions" list 26 Entering an e-mail address 27 Verification to giving a newsletter confirmation 28 Working overview of Information links about store and orders 29 Change the site language 30 Execution many scenario of ordering process, with other payments, deliviery methods 31 Adding a payment card 32 Adding the NUTRIDOME PLUS option 33 Adding promo code	13	Changing number of products
